Dr. Rolf Fränkel (March 29, 1908 – September 9, 2011) was a German Orthodontist who is known to develop the Frankel functional appliance

Sorry, the Wayback Machine does not have this video (FF9depba7co) archived (or not indexed yet).

This will not turn you into a male model but It brings a lot of benefits if don't have Mike Mew near you

What it has done for me:

1. Put the tongue in the correct position

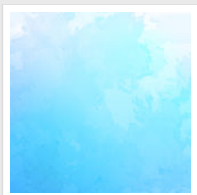

3. Aligns the spine - makes you stand taller
4. Aligns the teeth naturally
5. Give you a deeper voice (more masculine)- healing nazal voice
6. Muscles of your neck and jaw get stronger

Here Mike Mew made a video about it. He says the face does not change a lot but in my opinion the Frankel regulator can put ou maxilla foward

Can you expand on some of these claims? How do you think it has achieved these things?

i didnt look into this a lot, but this seems like the most legit looksmxing thing ive read on lookism so far if its real

an orthodontic appliance that you could wear for 1-3 years that would give you a semi lefort1 and might possibly make my upper row of teeth 3mm forward (and essentially correct my underbite)

pic is in reference to me:

actually you use this for just 6 months (at least with my orthodontics here)

this is the time you body need to ajust all the neuromuscular groups of the tongue and jaw

after that your body memorize, and you don` t need to use the device

I had this done, albeit in more outdated way.  
Took 2 and half years, maybe 3.

If you guys ever have kids just make them avoid baby dummies like a plaque.

was it fixed to your jaw somehow before? or is it just a lose application that you can put in and out in your mouth on your own?

24/7 for 6 months

It is mobile, so you take it off when you eat. Just like the mike mew device

but you need to find some orthodontics to make one for you
